

Foundation Training Job Description

Grade	F1
Placement	General Surgery

<p>Department</p>	<p>Northern General Hospital</p> <p>The Sheffield Colorectal Unit provides all aspects of elective and emergency colorectal care for Sheffield. It is also a tertiary referral centre for patients from the region, the majority of the elective work is colorectal in nature, 70% of our patients are admitted as an emergency. All spectrum of abdominal cases are admitted via A&E and triaged. The rectal patients remain on site each Foundation 1 works within a team to provide in-patient care for these patients. There are also opportunities to observe surgery, anaesthesia, endoscopy and outpatients.</p> <p>All elective and emergency upper and lower GI (UGI and LGI) services are also amalgamated on the NGH site. This includes Hepatobiliary (HPB), Oesophago-gastric (OG) and Morbid Obesity (MO) and Endocrine Surgery.</p> <p>Firth 3,4,8,9 and Huntsman 2 are the NGH General Surgery wards. Colorectal Surgery is based on Firth 3 and 4, UGI is based on Firth 8 and HPB on Firth 9 and Huntsman 2 is a short stay elective ward as well as the Theatre Admissions Unit.</p> <p>The Foundation 1 will have responsibility for their own defined group of inpatients but but there is considerable flexibility and cross cover among the Foundation 1's within the allocated team. The Foundation1 is responsible for pre-operative assessment of elective patients and inpatient management of emergency and elective surgical patients.</p> <p>There is a business meeting for Colorectal on Thursday morning and Tuesday Morning for Upper GI/HPB where allocations are made for the weeks. This gives the trainee the opportunity of deciding which aspects of their training can be met. There will be ample opportunity to learn practical procedures and even attend theatre as required. The Foundation 1 will be expected to gain experience of:</p> <ul style="list-style-type: none"> • Surgical note taking • Critical care • Minor practical ward procedures • Emergency surgical diagnosis • Case presentation • Running of multidisciplinary meetings <p>Royal Hallamshire Hospital</p> <p>General Surgery sub-specialties of Breast is part of the Plastic surgery Directorate and are based on the RHH site on ward F2. The ward will accommodate breast plastic, breast general surgery, sarcoma, endocrine and skin patients (including a microvascular bed).</p>
-------------------	--

<p>The type of work to expect and learning opportunities</p>	<p>The Department of Health, through its policy of Modernising Medical Careers, has set out the educational content of the two year foundation programme to be pursued by newly qualified doctors in the United Kingdom. A curriculum has been set out describing the key knowledge, skills and attitudes that must be achieved by junior doctors before they progress onto specialist training.</p> <p>The Postgraduate Dean has confirmed that these posts have the required education and staffing approval. All of the rotations will run in association with Deanery staff, who will support a structured appraisal and assessment process that will allow successful applicants to make the most use of available opportunities. Ten mandatory educational days are included in the Foundation Programme.</p> <p>The GMC emphasise that it is a duty of all doctors to be involved in the education and training of doctors at all levels, including undergraduate level.</p> <p>In more recent years emphasis has been placed on the need for doctors to be trained in educational approaches in order to prepare them for their role as an educator in the future.</p> <p>Foundation training is about gaining generic skills which can be applied across all specialties and throughout an entire career.</p>
