

# Foundation Training Job Description

Grade	F1
Placement	Infectious Diseases
Department	<p>The South Yorkshire Regional Department of Infection and Tropical Medicine consists of 33 dedicated beds, 17 of which are single en suite cubicles with negative pressure ventilation. Patients with a wide range of infections are admitted 24 hours per day seven days a week as secondary and tertiary referrals from general practice, accident and emergency and transfer from other hospitals. In addition, Sheffield forms the 'hub' of the South Yorkshire Regional HIV Network, and takes admissions of HIV patients from around the region. The trust is one of four recognised centres in England designated as being able to care for patients with confirmed Ebola/Category infections. The unit has one of the largest OPAT services (out-patient antimicrobial therapy) in the UK.</p> <p>As part of the ward medical team, the well supported F1 trainee will be responsible for initial assessment and ongoing management of patients admitted to the two Infectious Diseases wards. This includes patients with community-acquired and travel-related infections, and there are also opportunities to gain experience in the specialist management of HIV, viral hepatitis, and tuberculosis. There are regular consultant teaching ward rounds, and twice weekly departmental seminars covering a range of topics, in addition to the formal F1 teaching sessions. The F1 trainee is expected to contribute to departmental seminars, and to ward-based student teaching. Involvement in research, service development and audit activity is encouraged.</p> <p>The post is EWTD-compliant, and involves out-of-hours duties on the Infectious Diseases unit and also involvement in the Hospital at Night team, covering other specialty areas.</p>

<p>The type of work to expect and learning opportunities</p>	<p>The Department of Health, through its policy of Modernising Medical Careers, has set out the educational content of the two year foundation programme to be pursued by newly qualified doctors in the United Kingdom. A curriculum has been set out describing the key knowledge, skills and attitudes that must be achieved by junior doctors before they progress onto specialist training.</p> <p>The Postgraduate Dean has confirmed that these posts have the required education and staffing approval. All of the rotations will run in association with Deanery staff, who will support a structured appraisal and assessment process that will allow successful applicants to make the most use of available opportunities. Ten mandatory educational days are included in the Foundation Programme.</p> <p>The GMC emphasise that it is a duty of all doctors to be involved in the education and training of doctors at all levels, including undergraduate level.</p> <p>In more recent years emphasis has been placed on the need for doctors to be trained in educational approaches in order to prepare them for their role as an educator in the future. There will be opportunity to teach with peer and senior feedback</p> <p>Foundation training is about gaining generic skills which can be applied across all specialties and throughout an entire career.</p>
--	---

<p>Main duties of the placement</p>	<p>Day to day management of patients under consultant care.</p> <p>On call duties as required under the hospital at night system.
