

Foundation Training Job Description

| | |
|------------|---|
| Grade | F1 |
| Placement | Urology |
| Department | <p>There are 16 Consultants, 5 Specialty Registrars and 2-3 Academic Clinical Fellows, 3 Core Surgical Trainees (CT1/CT2) and 4 FY1 trainees. The Consultant Urological Surgeons work as 4 teams which are divided into 2 larger teams, with each of these having two Speciality Registrars, one/two Core Surgical Trainees and the FY1 trainees rotate through the teams. There is also a staff grade doctor and a team of clinical nurse specialists, as well as ward-based advanced nurse practitioner/trainees. The job provides a mix of exposure to elective surgical admissions / postoperative care and emergency urology admissions. The FY1 trainee works a full shift rota contributing to the Hospital at Night team in the Royal Hallamshire Hospital and providing out of hours cover for surgical services inpatients (Urology, General Surgery, Orthopaedics and Plastic Surgery) and Urology emergency admissions. In addition to ward duties there are regular teaching sessions and M&M / audit meetings which the FY1 trainees are expected to attend and contribute to. There is also the opportunity to attend elective urology activities (outpatients, theatres etc) and to provide bedside teaching to the medical students rotating through the Urology service. There are opportunities for participation in both audit and quality improvement projects and the directorate is very active in clinical and laboratory research.</p> |

| <p>The type of work to expect and learning opportunities</p> | <p>The Department of Health, through its policy of Modernising Medical Careers, has set out the educational content of the two year foundation programme to be pursued by newly qualified doctors in the United Kingdom. A curriculum has been set out describing the key knowledge, skills and attitudes that must be achieved by junior doctors before they progress onto specialist training.</p> <p>The Postgraduate Dean has confirmed that these posts have the required education and staffing approval. All of the rotations will run in association with Deanery staff, who will support a structured appraisal and assessment process that will allow successful applicants to make the most use of available opportunities. Ten mandatory educational days are included in the Foundation Programme.</p> <p>The GMC emphasise that it is a duty of all doctors to be involved in the education and training of doctors at all levels, including undergraduate level.</p> <p>In more recent years emphasis has been placed on the need for doctors to be trained in educational approaches in order to prepare them for their role as an educator in the future.</p> <p>Foundation training is about gaining generic skills which can be applied across all specialties and throughout an entire career.</p> |
