

LEEDS INTERVENTIONAL RADIOLOGY **ST1 SIMULATION DAY**

Friday 7th July 2023 Leeds
Radiology Academy, LGI

Dear colleague,

We are delighted to welcome you all to the Leeds Interventional Radiology Simulation Day 2023.

This event aims to give ST1 Radiology trainees in Yorkshire an insight into the world of IR. This is a great opportunity for those early in radiology training to learn about the different techniques and equipment used, as well as gain hands-on experience using high quality materials and simulators.

We have planned a condensed but comprehensive morning aimed at maximising practical hands-on experience. The day is also kindly being supported by leading global medical device and equipment manufacturers.

Refreshments will be provided during the morning. The Radiology Academy is located on the main (B) floor of Clarendon Wing in Leeds General Infirmary. LGI is approximately 0.7 miles/15 min walk from Leeds train station.

Leeds Teaching Hospitals and the Leeds Radiology Academy are looking forward to welcoming you.

Yours sincerely,

Dr Edem Barnor-Ahiaku
Interventional Radiology Fellow
Organiser

LEEDS INTERVENTIONAL RADIOLOGY **ST1 SIMULATION DAY**

Friday 7th July 2023 Leeds
Radiology Academy, LGI
