SKILLS

Resuscitation Council (UK) Paediatric Immediate Life Support

Dates Available	Wednesday 7th October 2020, Thursday 26th November 2020 (FULLY BOOKED), Wednesday 6th January 2021 (FULLY BOOKED), Thursday 28th January 2021 (FULLY BOOKED), Wednesday 10th February 2021 (FULLY BOOKED) and Wednesday 17th February 2021 (FULLY BOOKED)
Venue	Resuscitation Training Room, Harrogate District Hospital
Course Leader	Paula De Souza - Service Lead for Resuscitation
To Book a Place Email	resuscitation@hdfh.nhs.uk
Places Available	12 Per Session
Curriculum Objectives	
<p>Good clinical care Recognises when patient safety is at risk and institutes changes to reduce risk; Plans appropriate strategies for investigation and management</p> <p>Recognition and management of the acutely ill patient Uses an Airway, Breathing, Circulation, and Disability, Exposure (ABCDE) approach to assessing acutely unwell or collapsed patients. Recognises patients with acute illness requiring urgent/emergency treatment and initiates early management. Rapidly performs primary assessment, evaluates and recognises the severity of illness in acutely ill or collapsed patients. Takes appropriate timely action to treat a patient with abnormal physiology. Anticipates and plans appropriate action to prevent deterioration in vital signs</p> <p>Resuscitation and end of life care Is trained in immediate life support (ILS or equivalent) and paediatric life support if working with children. Knows how to initiate and respond to a crash call</p>	
Course Outline	
<p>Learning outcomes The PILS course teaches the knowledge and skills to:</p> <ul style="list-style-type: none"> • understand the structured ABCDE approach that facilitates rapid recognition of seriously ill children; • provide appropriate initial treatment interventions to prevent cardiorespiratory arrest; • treat children in respiratory or cardiorespiratory arrest until the arrival of a resuscitation team or more experienced assistance; • promote active membership of a paediatric resuscitation team <p>For further details see link below: https://www.resus.org.uk/information-on-courses/paediatric-immediate-life-support/</p>	

SKILLS

Chest Drain Insertion Course

Dates Available:	Tuesday 13 th October 2020 and Thursday 5 th November 2020 (FULLY BOOKED)
Venue:	Postgraduate Centre, Scarborough
Course Leader:	
To Book a Place Email:	Victoria.Spencer@YORK.NHS.UK
Places Available:	8
Curriculum Objectives:	
Section 3 - Clinical care Section 4 – Safety & Quality	
Course Outline	
<p>The aim of this course is to provide you with the skills and knowledge to safely identify, prepare and insert a chest drain both open or Seldinger.</p> <p>Target competencies:</p> <ol style="list-style-type: none"> 1) Identify indications to require a chest drain 2) Identify Landmarks for insertion and areas to avoid and why 3) Identify when to insert Seldinger for small spontaneous pneumothorax or open method for trauma and why 4) Thorough understanding of the procedure for insertion using Seldinger technique 5) Thorough understanding of the procedure for insertion using open technique 6) How to manage the patient following insertion <p>Please note a £45 deposit, refundable upon arrival, will be required to secure a place on this course</p>	

SKILLS

Ultrasound Course

Dates Available:	Tuesday 20 th October 2020 (FULLY BOOKED) and Wednesday 21 st October 2020 (FULLY BOOKED)
Venue:	Postgraduate Centre, Scarborough
Course Leader:	
To Book a Place Email:	Victoria.Spencer@YORK.NHS.UK
Places Available:	8
Curriculum Objectives:	
Section 3 - Clinical care Section 4 – Safety & Quality	
Course Outline	
<p>The aim of this course is to introduce you to the skills and knowledge for the use of Ultrasound as a procedural aid and specifically in the insertion of central venous catheters, use of ultrasound in ALS & FAST (Focussed Abdominal Ultrasound for Trauma).</p> <p>The course will cover:</p> <ul style="list-style-type: none"> • How to achieve competency • the Physics of Ultrasound • setting and using the machine ('Knobology') • vascular access, both peripheral and central using Ultrasound for guidance • Use of Ultrasound in ALS: simple Echo • Measurement of the Aorta • principles and procedure of FAST <p>Please note a £45 deposit, refundable upon arrival, will be required to secure a place on this course</p>	

SPECIALTY

GP Patient Scenario Preparation for the F2

Dates Available:	Thursday 29th October 2020 (Half day course) (CANCELLED)
Venue:	Education Centre, Doncaster Royal Infirmary
Course Leader:	
To Book a Place Email:	dbth.medicaleducation@nhs.net
Places Available:	30
Curriculum Objectives:	
<p>Professionalism</p> <p>Relationship and communication with patient</p> <p>Ethical and Legal Issues</p> <p>Maintaining good medical practice</p> <p>Good clinical care</p> <p>Investigations</p>

SKILLS

Chest Drain

Dates Available	Thursday 11 th February 2021, Thursday 25 th February 2021, Friday 26 th February 2021 and Thursday 16 th March 2021 (All dates fully booked) Please note, all above courses are half days.
Venue	
Course Leader	Dr Joshil Lodhia
To Book a Place Email	Foundation.Year2@hey.nhs.uk
Places Available	12
Curriculum Objectives	
<ul style="list-style-type: none"> · Understand the indications for a chest drain · Be able to insert a surgical and a Seldinger chest drain · Know the complications related to chest drain insertion · Be able to make decisions related to drain management 	
Course Outline	
<ul style="list-style-type: none"> · Introductions and presentations about indications of chest drains (Inc. BTS guidelines). · Presentation about the complications of chest drains · Presentation describing the procedure (Inc. surgical and Seldinger) · Practical session in pairs with pig half chest walls. · Final presentation regarding chest drain management (when to consider suction/ drain removal) 	

SPECIALTY

Frailty Course

Dates Available	Friday 19th February 2021 (FULLY BOOKED) and Friday 12th March 2021 (FULLY BOOKED) (Half Day Courses)
Venue	Medical Education Centre, Barnsley
Course Leader	Dr B Madi, Dr W Rycroft and Sister Alyson Ripley
To Book a Place Email	tony.whitelam@nhs.net
Places Available	15
Curriculum Objectives	
<p>Speakers: Dr B Madi, Dr W Rycroft and Sister Alyson Ripley</p> <p>Timings: 1:00pm – 4:00pm</p>	
Course Outline	
<p>What is frailty?</p> <ul style="list-style-type: none"> • Most common geriatric presentations • What is Comprehensive Geriatric Assessment? What is the evidence? • Frailty Care Models - the role of ambulatory care • A patient story • A career in Geriatrics • The topics will be covered by the team - Dr Madi/Dr Rycroft and ANP Alyson Ripley 	

SKILLS

Airway and Ultrasound guided IV Cannulation

Dates Available	11th March 2021 (09:00 – 15:00) (FULLY BOOKED)
Venue	HILS, HULL
Course Leader	Leigh Cox

To Book a Place Email	Foundation.year2@hey.nhs.uk
Places Available	12
Learning Objectives	
<ol style="list-style-type: none"> 1. To be capable of performing airway manoeuvres and use of airway adjuncts including, oropharyngeal airway, nasopharyngeal airway, LMA and ETT. 2. To be capable of providing oxygenation using bag valve mask. 3. To be proficient in needling techniques on phantom model using ultrasound. 4. To be able to guide the cannula into the vein / artery using ultrasound. 	
Outline of the Day	
<ul style="list-style-type: none"> • 1. Introduction to airway workshop • 2. 12 trainees - split into 3 groups of 4. Each of them get to practice airway manoeuvres on a manikin • 3. Introduction on the use of ultrasound to visualise and cannulate veins and arteries • 4. Practicing techniques in groups as above 	

SKILLS

Clinical Skills & Interventions (CSI) Course

Dates Available	Wednesday 24th March 2021 & Tuesday 25th May 2021 (FULL DAY) (BOTH DATES FULLY BOOKED)
Venue	Medical Education Centre, Doncaster & Bassetlaw Teaching Hospitals NHS Foundation Trust
Course Leader	Jill Martin
To Book a Place Email	Jill.martin11@nhs.net
Places Available	12
Curriculum Objectives	
<p>The Clinical Skills & Interventions (CSI) Course aims to cover a number of key clinical skills (cannulation, lumbar puncture, assessment of the unwell patient) combined with an introduction to point of care ultrasound (US).</p> <p>By the end of the course you will be able to:</p> <ul style="list-style-type: none"> • Describe basic venous and arterial anatomy of the upper limb • Refine your current peripheral IV Cannulation technique • Explain how ultrasound (US) works and how it can be used clinically to increase venous cannulation success in difficult patients • Demonstrate US guided venous cannulation on Blue Phantom Models in preparation for gaining US guided peripheral IV Cannulation competency • Describe how point of care ultrasound (POCUS) may be used to manage two acutely unwell patients: The Collapsed Patient and The Acutely BreathLess Patient • Describe basic spinal and epidural anatomy relevant to Lumbar Puncture • Refine your current Lumbar Puncture Landmark technique to increase success 	

- Describe how US may assist Lumbar Puncture success in difficult patients

Course Outline

Two rooms to be used on both days with 2 faculty instructors on each day.
 Masks will be worn through by all staff/candidates and COVID social distancing will be maintained
 Pre-Course Material will be provided prior to Course date

Course Structure:

08:00-08:30: Introduction & Welcome

08:30-10:30: **Ultrasound (US) Guided Peripheral IV Cannulation and Access.** (2hrs): short lectures and hands on workshop using IV cannulation arm trainer, US machines, blue phantom models.

10:30-11:00: Catch up opportunity / Break

11:00-12:30: **POCUS Case 1: The Acutely Breathless Patient** (Introduction to Lung Ultrasound & Deep Vein Thrombus (DVT) Scanning. Introductory lecture followed by Workshop using Ultrasound to scan Volunteers. BodyWorks Eve simulator we hope will be present too. (1.5hrs)

12:30-13:15: Lunch (format of Lunch provision will be determined by COVID situation and rules)

13:15-14:45: **POCUS Case 2: The Acutely Collapsed Patient** (Introduction to Basic point of care Echo: Likely Subcostal View only to assess heart global function, rule out pericardial effusion. Introductory lecture followed by Workshop using Ultrasound to scan volunteers. Body works Eve Simulator we hope will be present too. (1.5hrs).

14:45-15:00: Break

15:00-16:30: **Lumbar Puncture (LP) Landmark Technique and US assistance.** Lecture followed by workshop on Lumbar Puncture (using back models and volunteers to scan).

16:30-17:00: Summary & Close

SKILLS

Surgical Skills Day

Dates Available	Friday 26th March 2021 (Fully Booked) and Tuesday 13th April 2021 (Fully Booked)
Venue	Suture Centre, Castle Hill Hospital
Course Leader	Dr Joshil Lodhia

To Book a Place Email	Foundation.Year2@hey.nhs.uk
Places Available	20
Curriculum Objectives	
<ul style="list-style-type: none"> · Be able to glove and gown in an aseptic manner · Be able to knot tie with left and right hands · Be able to name instruments and understand their uses · Safe handling of such instruments · Understand how different tissues handle and how they heal · Know the various techniques used to close skin and suture materials available · Excise a skin lesion and a sebaceous cyst 	
Course Outline	
<ul style="list-style-type: none"> · Introduction and demonstration of gloving, gowning and knot tying · Practical session for gowning & gloving and knot tying · Practical session on making an incision and suturing using different techniques · Discussion during the practical sessions regarding uses of different instruments and correct usage of these · Lunch · Repeat knot tying · Practical session on excising a skin lesion and a sebaceous cyst <p>09:00 - 17:00</p>

Venue	Virtual
Course Leader	Alexandra Damazer
To Book a Place Email	foundation.yh@hee.nhs.uk
Places Available	30 per day
Curriculum Objectives	

- 1) Discuss common ethical dilemmas for foundation doctors in the workplace and share experiences of difficult or challenging situations. Discuss measures that would help if a similar situation arose in the future.
- 2) Self Discharge
 - The ethical, legal, professional and moral aspects of self discharge from hospital
 - Perceptions, experiences and duties surrounding patients who self discharge
 - Self discharge and how it interacts with personal responsibility, duty of care and GMC/contractual obligations
- 3) Sedation
 - The ethical aspects of sedating patients
 - Personal experiences, perceptions and concerns around sedation of patients

Improved confidence with the ethical, legal and professional knowledge and responsibilities in common situations encountered by foundation doctors

Course Outline

- Introduction and ice breakers
- Morning session (with coffee break) – self discharge – to include small group discussion, reflective work and sharing of experiences, some didactic teaching
- Lunch break (time away from screens encouraged)
- Afternoon session – sedation – to include small group discussion, case studies, some didactic teaching, ethics bingo.
