What did others say about the Concise Acute Medicine Course?

"I was kept engaged and learnt throughout the whole day" Dr T. Green, CT2, Stafford

"Very concise. Well structured and organised. Important topics covered. Good speakers. Interactive. Made me feel more confident about the medical on-calls. The course is just the perfect one to go to either as an F1 or F2." Dr A. Gordon, F2, Wales

"Definitely worth getting up early and giving up a Saturday for! It was interesting & enjoyable" Dr L. Johnston, F2, Sheffield

"Excellent course, covering a wide spectrum of acute medical problems. Lectures clear and concise. Very reasonable cost" Dr C. Garnett, ST1, London

"Very well thought through content and pitched perfectly at my level as an F2" Dr L. Pyle, F2, Nottingham

"An excellent course covering a broad range of topics which will assist any junior doctor working in the acute medical setting" Dr M. Clarke, F2, Stoke-On-Trent

"A must for all who aspire for a career in A&E and hospital medicine" Dr P. Chakravorty, F2, Sheffield

"Very useful review course. Great tips and good atmosphere. Friendly and approachable lecturers" Dr S. Akram, F1, Sunderland

"Very intense but superbly organised course. Excellent MRCP revision aid & strongly recommended to those who work in acute medical settings" Dr M. Baldwin, F1, Leeds

CONCISE MEDICINE® **CARDIOLOGY** Course 2018

Saturday 1st December 2018

Contact: info@concisemedicine.co.uk

The **Concise Cardiology Course** will cover a wide variety of topics essential to all doctors both in hospital and community practice. Each topic is summarised with the latest evidence and presented in a practical manner including real life cases. There will be a great opportunity to strengthen your ECG interpretation skills.

What did others say about the Concise Cardiology Course?

"-Excellent. Broad overview of all cardiology sub-specialities. I would feel more confident in dealing with common presentations such as AF, ACS and heart failure.."
Dr P. Thiagarajan, F1, Stroke, Leicester

"Well presented, good course material, plenty of ECG practice, Good value for money, booklet well referenced"
Dr T. Knock, F2, Stroke, Nottingham

"Excellent course, good speaker, good overview for MRCP revision"
Dr H. Jennens, F2, Birmingham

"V useful course for junior doctors, not just for those who want to pursue a career in cardiology"
Dr S. Nevitt, GP F2, Sheffield

"Very useful for cardiology and A&E rotations in particular but generally important for all of us doing on-calls"
Dr B. Grayston, F1, Lincoln

"Excellent teacher who knows very well about his subject. Excellent course"
Dr H. Haider, ST2, Leicester

"Excellent course. Interactive with a lot of case studies to reinforce the learned material. Strongly recommended. Useful for MRCP revision"
Dr M. Starinac-Baldwin

"Useful review of cardiology, clinically very relevant. Excellent speaker"
Dr L. Smy, CT1, Doncaster
