## GP differential attainment (DA)

INDIVIDUAL trainee support is supplementary to this and is responsive to trainee needs as they progress Differential Attainment through training SharePoint resources **GP** training application 'Hello My Story Is' Hello my story you and your previous experience Online screening followed by offer YES 'Blackboard' ND learning modules All undiagnosed indicated NO Screening +ve neurodiversity and subsequent formal testing identified PLP Checklist International Graduate Social prescribing (support with social issues) Language strategies for UK Course run by consultation course specialist linguist after some months in GP training (Study SharePoint and online resources leave needed) YES YES Near-peer linguistic interventions are all signed to work together to coaching 'Chatter Trust post Chums' Enhanced Support into their new clinical settings Trust post STARS simulation ESP occupies the first two weeks of initial Trust post or course GP training programme - scheme support including HDR, central teaching sessions, peer mentoring, trainee resources on SharePoint

DA interventions are aimed at supporting GROUPS who share the same characteristics, which might put

them at risk of finding GP training more challenging.

GP training programme - individual trainee support according to circumstances e.g. specialist linguistic support, booster courses for trainees with adverse ARCP outcomes, exam preparation and additional support from training support TPDs.
