

**Name:**  
Kylie Marks

**Job Title:**  
ST6 O&G Leadership Fellow  
Simulation

**Supervisor:**  
Prof. Tom Farrell

**Aims of Post:** (Please limit to 2-3 bullet points)

To develop a greater understanding of organisations and systems within the NHS.

To complete an accredited academic qualification in healthcare education..

To develop and deliver a simulation based educational resource mapped for O&G Trainees

**Summary of Post:**

I developed as an educational resource to provide O&G trainees and educators with a standardised tool to deliver teaching through the modality of simulation. It includes a library of simulation scenarios mapped to the RCOG curriculum with supportive materials including learning objectives, equipment lists, feedback checklists and debrief guidance.

Scenarios are categorised to reflect the three levels of training: basic, intermediate and advanced. It is envisaged that these scenarios can be used to achieve logbook competencies, deliver in-situ simulation within local trusts and support trainees and educational supervisors to deliver local teaching.

**Achievements:**

FLP Conference – Standardised Obstetric Simulation (27/03/17)

Yorkshire and Humber Clinical Skill Simulation Network regional Conference – Standardised Obstetric Simulation (12/07/2017)
