

The Royal College of Pathologists

Pathology: the science behind the cure

Dear Foundation Doctor,

Royal College of Pathologists Foundation Fellowships

Congratulations on having been appointed to a Foundation post which includes a pathology discipline. I am delighted to draw your attention to the Royal College of Pathologists Foundation Fellowship scheme, for which you are therefore eligible to apply. This is the third year of running our Foundation Fellowships, which has proved a very successful and popular scheme.

You can find details of the scheme here: [RCPATH Foundation Fellowships](#).

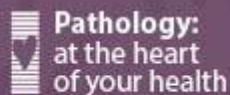

I do hope as many as possible of you will apply for a Fellowship and I look forward to welcoming the successful candidates to the RCPATH community.

Kind regards,

Angharad Davies
