

Name:

Sallianne Kavanagh

Job Title:

Leadership fellow for safer diabetes

Supervisor:

Dr Amanda Plummer

Aims of Post:

To reduce diabetes treatment errors for people in hospital.

Improving governance assurance systems for insulin and diabetes medication related incidents.

Improving education provision to staff to support safer insulin management in hospital

Summary of Post:

Introduction of a pharmacist governance assurance post to Sheffield Teaching Hospitals to support the diabetes inpatient team. The role will focus on investigating and understanding errors relating to insulin. Training and education materials will be developed in response to trends in the incidents reports to mitigate future errors.
