		<p>Princess Royal Spinal Injury Unit Northern General Hospital Herries Road Sheffield S5 7AU</p> <p>Charles Clifford Dental Hospital 76 Wellesley Road Sheffield S10 2SZ</p> <p>Royal Hallamshire Hospital (G.A.) Glossop Road Sheffield S10 2JF</p> <p>Talbot School (transitional care) Lees Hall Road Sheffield S8 9JP</p> <p>Domiciliary visits to multiple residential care sites/patient's homes etc</p>
6	Travel Commitment	Trainee will be required to travel independently between sites listed above and occasionally to sites across the Yorkshire and Humber region for joint training with the other Yorkshire and Humber StRs in Special Care Dentistry
7	Primary Care Element	A significant proportion of the training is within primary care, and thus it is essential that the trainee is on or eligible to be on the NHS Performers List
8	Description of the training post	<p>Special care dentistry specialty training in South Yorkshire is very well-established and is characterised by a friendly, inclusive approach. Our strengths include the breadth and depth of experience of our specialist and senior dental clinical trainers, their extensive links with both local and national networks via the Royal Colleges and Specialist Societies, together with the strong links to other medical and dental specialties via the University of Sheffield School of Clinical Dentistry, and other local healthcare Trusts. Additionally, we work closely with charitable and voluntary groups to ensure services are delivered with a holistic, patient centred approach.</p> <p>We work in close collaboration with our colleagues across the Regional Yorkshire and Humber Special Care Dentistry programme sharing training and teaching opportunities and are active, enthusiastic participants in all regional and national organisations for Community and Special Care Dentistry.</p> <p>Special care dentistry has a broad curriculum, and training is delivered by a combination of didactic teaching together with clinical attachments both within primary and secondary care.</p> <p>Trainees have the opportunity to treat patients with inhalational, oral and intravenous sedation, hypnosis, acupuncture and to develop competencies in behavioural therapy. Clinical duties include care of adults with learning</p>

		<p>difficulties, mental health problems, severe dental anxiety and care of older adults.</p> <p>They will also care for medically compromised patients who require treatment in a secondary care setting in liaison with other medical teams such as Cardiology, Haematology and Oncology. They will be part of a team providing comprehensive dental care under GA on a day-case basis in both teaching and district hospitals.</p> <p>They will deliver treatment in a variety of clinical situations, including on domiciliary visits to patient houses, nursing homes, specialist units for young adults with autism and learning disabilities, spinal injury unit, mental health units, homeless projects, and prisons or secure units, special schools, and specialist Consultant clinics. They will have a number of short attachments to other specialty medical clinics, together with Oral Health Promotion Teams and other Community Health Care Professionals.</p> <p>They work closely with our management teams to gain competencies in commissioning and delivering high quality services in an efficient cost-effective way for patient benefit. The Oral Health Promotion Team work closely with the trainees to develop strategies and patient information to promote excellent oral health within special care groups</p> <p>The post-holder will be involved in teaching on our undergraduate outreach programme, and in supervision of dental core trainees. They are encouraged and supported to be involved in teaching and presenting at a local, regional and national level.</p> <p>This post has no on-call commitments.</p>
9	Educational programme and library facilities.	<p>Trainees are supported to complete the Diploma in Special Care Dentistry RCS (ENG), a self-directed distance learning programme.</p> <p>In the last year of training, the post-holder will sit the Tricollegiate Membership in Special Care Dentistry. Upon satisfactory completion of this and the HEYH training programme, they will become eligible to register as Specialists in Special Care Dentistry</p> <p>Trainees electronically record evidence and outcomes of training, clinical portfolio, learning agreements, workplace-based assessments and professional development in a secure electronic format, (Intercollegiate Surgical Curriculum Programme ISCP) which is shared with their clinical and educational supervisors and Training Programme Director.</p> <p>Progression through training is assessed annually at the Annual Record of Competence Progression (ARCP).</p> <p>Trainees will apply for an Honorary Contract as Clinical Teachers with the University of Sheffield, School of Clinical Dentistry and will therefore have access to the University library facilities as well as the Medical Library at the Royal Hallamshire Hospital.</p> <p>Trainees participate in regional case-based discussion days and journal clubs throughout the post.</p>
10	Employing Organisation	Sheffield Teaching Hospitals NHS Foundation Trust

Commented [WU1]: Trainees will also have access to TRFT Library & Knowledge Service at Rotherham General Hospital and the Knowledge Hub at Rotherham Community Health Centre.

11	Will the employing organisation change during the training period? E.g. at rotation	Our host trust has recently opened two new purpose-built community dental clinics to serve the city of Sheffield. These provide enhanced facilities at training locations (bariatric equipment, wheelchair tipper, shifter base dental chair, hoist, dedicated IV surgery), and the opportunity for the post-holder to train within larger clinical teams employing a wider skill-mix.
