Additional information for the website about our posts:

The Yorkshire and the Humber region has three rotations (West, South and East), which each can provide all the experience needed for level 1 and 2 training. While trainees mostly train in their own locations, there may be occasions where trainees are temporarily placed in other area to enable them to pursue individual training interests.

The school provides teaching across the region and trainees have opportunity to access this in different locations.

The East of the Yorkshire and Humber region:

The East of the region has the following hospital placements:

- Grimsby
- Harrogate
- Hull
- Scarborough
- Scunthorpe
- York

These are all busy departments that provide good clinical training. In particular Harrogate, Scunthorpe and Grimsby consistently have had good trainee feedback in recent surveys and there is access to external training for all placements. Detailed below is tentative plan of rotation for the successful candidates but this may be subject to change , dependent upon changes in circumstances of the trainees or individual departments. To keep travel times to a minimum we have divided the East region into a North-East and South –East rotation as detailed below:

* Placement based on pan-deanery application and availability of a suitable slot within the subspeciality requested by candidate

This table applies to the ST1 posts advertised. ST2s will be placed according to their training needs.

The following Hospital Placements are in the West of the region:

- Bradford
- Calderdale (based in Halifax)
- Dewsbury
- Leeds General Infirmary
- Leeds St James
- Pinderfields
- Pontefract

The following Hospital Placements are in the South of the region:

- Barnsley
- Bassetlaw
- Doncaster
- Jessop Wing
- Rotherham
- Sheffield Children's Hospital

The South and West hospitals do not have fixed rotations at present but trainees will be asked for their preferences once a year. There will be opportunity to work in other areas of the region as required for training. We have pan-deanery and cardiology interest posts and these are usually allocated by need or by competitive interview.
