

Name:

Dr Yousef Gargani

Job Title:

Clinical Leadership Fellow to Yorkshire and Humber Congenital Cardiac Network

Supervisor:

Dr Sam Wallis

Aims of Post:

- To help establish the Yorkshire and Humber Congenital Cardiac Network and improve compliance with NHS England Standards
- To improve information sharing across the network.

**Summary of Post:**

This post was a brilliant opportunity to get involved in the evolution and management of the Y&HCCN. It allowed me to become more familiar with the commissioning of congenital cardiac services, as well as gain valuable skills in organising educational meetings and writing guidelines. These opportunities were complemented by the courses and workshops arranged by the Future Leaders Programme, and the valuable learning I did during my PGCert in Medical Leadership.

Achievements:

Established Y&HCCN Directory

Set up NHS Networks website

QIP to improve discharge summaries for congenital cardiac patients

Organised two regional Y&HCCN meetings – attended by approx. 40 clinicians, nurses, physiologists

Guidelines:

Regional “High Risk” Congenital Cardiac guideline

Regional Genetics guideline

Local Murmur pathway

Local General Anaesthetic in Children with Cardiac Disease Pathway

Local endocarditis guideline

Set up a service evaluation to ensure compliance with NHSE standards
